

## Dehumidifier Q Dry Low Temp MJ-EZ6CX

Compact and efficient in cold premises. Also intended for drying laundry.

Compact and efficient in cold premises. Also intended for drying laundry.

Q DRY LOW TEMP has a very high moisture absorption capacity under low temperatures (this is made possible by a special technology “sorptionsstekniken”). If you so wish, you can move a dehumidifier from your home to considerably colder premises, for instance, a garage, a boat or a camper van – this is an ideal solution.

The dehumidifying function can operate automatically or having set it according to a chosen programme. An appliance emits only 37 dB sound! Has a very powerful dehumidifying function and a mildew guard function.

The intelligent laundry function adapts to the amount of humidity in the laundry and in the premises – this enables a reduction of energy input and efficient and speedy drying of the laundry.

- Automatic/manual dehumidifying mode
- Low temperature function
- Ventilation (Deo-Dry) function
- Intelligent laundry function
- Automatic airflow direction control
- Switch-off timer
- Silver-ion filter
- Filter indicator
- Mildew guard
- Discharge of water into the wastewater system

## Specifications

Model	MJ-EZ6CX
Warranty	2 years
Power supply voltage	220-240 V 50 Hz
Power consumption (max)	305 - 590 W IP 21
Energy consumption in standby mode	~1 W
Refrigerant	No, using "sorptionsteknik" technology
Dimensions	485 x 190 x 324 mm
Weight	7 kg
Moisture collection capacity at 30°C and 80% humidity	6 l daily
Inner drying function	No
Cold air	No
Child lock	No
Laundry drying function	Yes, 3 options
Noise level high / low	47/37 dB
Noise level with drying function	49 dB
Modes	Automatic, High, Low, Anti mold
Low-temperature function	Yes
Operating temperature	+1° - +35° C
Automatic mode	Yes
LCD screen	No
Display existing moisture	No
Hydrostat	~ 55% humidity
High humidity warning	No
Anti mold protection	Yes
On-off timer	No
Sleep timer	Yes
Air flow direction control	Yes, automatic, 3 position
Air cleaning	No
Photocatalytic filter	No
Silver-ion filter	Yes. A sterilization and odour-elimination filter with anti-bacterial substances. An anti-allergy, anti-virus filter is multiple use (washable).
Easy dehumidifying	No

Water collection capacity	2,4 l
Connection to wastewater system	Yes (pipe not included)
